ELCC Pass Rates Over Time using 2002 Standards

- In Fall 2004:
  - 14% given Full National Recognition status
  - 14% given Nationally Recognized with Conditions
  - 75% given Further Development Required status
- Starting in Fall 2008 – Pass Rate Flipped:
  - 27% given Full National Recognition status
  - 61% given Nationally Recognized with Conditions
  - 12% given Further Development Required status

Most Common Reasons for Not Gaining National Recognition Status

Developers do not understand how to create effective assessments to measure candidate performance against the ELCC standards:

– Assessment Descriptions, Scoring Rubrics, and Data Charts Show No Alignment to ELCC Standards

– Scoring Rubrics are vague and not clearly defined or group lots of standards together into one measurement

– Data charts do not relate to assessments or standards
